

Who is RANE?

We are an information and advisory services company that connects business leaders to critical risk insights and expertise, enabling risk and security professionals to more efficiently address their most pressing challenges and deliver better risk management outcomes.

What problem does RANE address?

Global exposures have **dramatically increased** in intensity and scale, posing serious challenges for even the most sophisticated risk management programs. The market for risk management information and services is also **highly fragmented**, compounding the difficulty of finding critical resources and limiting access to information on emerging threats.

RANE's Community.

Risk Management Professionals

Leading financial institutions, law firms, and corporations across all industries, and thought leaders from academia, law enforcement, and public agencies.

Network of Risk Experts

A global network of 5,000+ credentialed, vetted risk experts and service providers across six major categories of risk.

We tap into the collective wisdom of this community to enable better decision making for our clients.

How does RANE work?

Membership: RANE clients receive **exclusive access** to curated network intelligence, community-enabled proprietary content (best practices, checklists, polls, interviews, etc.), and knowledge-sharing webinars and events to help address the evolving risk landscape and emerging threats. Our online platform also provides access to risk monitoring tools and our global directory of risk experts.

Network Services: We deliver a range of **risk management programs and projects**, including regulatory readiness and training, due diligence and investigations, and comprehensive offerings in cybersecurity, physical security, and travel safety. Our in-house subject matter experts work with our extended global network to deliver better outcomes for your most pressing risk issues. Together, they provide consultative support on preparing for these exposures in advance, in response, and in repair.

Expert Marketplace: Identifying the **right expertise at the right price** is challenging for any risk professional. RANE augments our clients' existing resources by connecting them directly to experts and service providers in our extensive global network. With our knowledge of their capabilities and qualitative factors from our community, we help evaluate providers and find the best fit for your particular needs. We save you time and effort while providing transparency into how these services are priced.

What roles does RANE typically support?

- ✓ Complement and extend existing resources
- ✓ Share key learnings between peers, across networks, and across borders
- ✓ More effectively monitor evolving risks; filter information to separate the signal from the noise
- ✓ Efficiently source relevant information and expertise

What are the benefits of working with RANE?

Improved situational awareness on emerging risk and threats so you can take a more proactive approach to risk management

Efficient access to information and expertise to get you to the right resource when needed with the right answer at the right price

Better risk management outcomes through more informed decision-making and more effective risk mitigation and preparation

Show me RANE in action
